## 'Orb' carpets

*As I watched the glowing orb rise in front of me,  
I knew it was a friendly spirit as its light replaced darkness all over earth.*

A collection of carpets named 'Orb' have been created by Milla Novo and Moooi carpets. They incorporate the knotting technique and metallic ropes from Milla Novos signature wallhangings and take inspiration from shapes typically seen in the indigenous Mapuche culture of South America. The Orb is other worldly, mysterious, and full of positive energy.

The Orb carpet was created in a challenging pandemic year where many of us have had time to reflect on what is *really* important in life. Priorities and visions have changed and as we emerge in a post pandemic world, Milla Novo sees the Orb bring a positive fresh burst of energy to help us all shine and succeed.
